Meet the Million Dollar Twins

Identical twins from Louisiana, Tiffany and Taylor Howard, have become known as the "Million Dollar Twins" for their remarkable achievement of earning over \$1 million in scholarships and financial aid to fund their college educations. Now, they've teamed up to share their secrets with other students looking to minimize their college expenses.

Start Early and Plan Strategically

The twins advise students to start thinking about college funding as early as possible. "We started exploring scholarship opportunities in the sixth

grade," Tiffany says. "The earlier you start, the more time you have to research and apply for awards."

They also emphasize the importance of being strategic in your search. "Don't just apply for any scholarship you see," Taylor adds. "Research the requirements and make sure you meet them before applying. It's also helpful to tailor your essays and applications to each specific scholarship."

Maximize Scholarships and Financial Aid

Scholarships are a great way to reduce the cost of college, and the twins have some tips for maximizing your chances of winning them.

- **Apply for as many scholarships as possible:** The more scholarships you apply for, the greater your chances of winning one.
- **Start researching scholarships early:** Scholarships often have deadlines, so it's important to start looking for them well in advance.
- **Tailor your applications to each scholarship:** Take the time to read the requirements of each scholarship and tailor your application to the specific award.
- **Don't be afraid to ask for help:** If you're having trouble finding scholarships or completing applications, don't hesitate to ask for help from your teachers, counselors, or family members.

In addition to scholarships, financial aid can also help you pay for college. The twins recommend completing the Free Application for Federal Student Aid (FAFSA) as soon as possible after October 1st each year. "The FAFSA determines your eligibility for federal and state grants and loans," Taylor says. "Don't miss out on free money that could help you pay for college."

Explore Alternative Funding Options

If you don't qualify for enough scholarships or financial aid to cover the cost of college, there are other alternative funding options available.

- **Student loans:** Student loans are a common way to pay for college. However, it's important to borrow only what you need and to be aware of the interest rates and repayment terms.
- **Crowdfunding:** Crowdfunding platforms like GoFundMe and Kickstarter allow you to raise money from friends, family, and strangers to help pay for college.
- **Side hustles:** Working a part-time job or starting a small business can help you earn extra money to put towards college.
- **Investments:** Investing in stocks, bonds, or mutual funds can help you grow your savings over time. However, it's important to invest wisely and to be aware of the risks involved.

Save Money Wisely

In addition to finding ways to earn money for college, it's also important to save money wisely. The twins recommend budgeting your money carefully and cutting back on unnecessary expenses.

- **Create a budget:** Track your income and expenses to see where your money is going.
- **Cut back on unnecessary expenses:** Identify areas where you can save money, such as eating out less often or buying generic brands.
- **Save your spare change:** Put your spare change in a jar or piggy bank and watch it grow over time.

- **Take advantage of free activities:** There are plenty of free activities available, such as going to the park, visiting museums, or attending community events.

Paying for college can be a challenge, but it's possible to do it without going into debt. By following the tips from the Million Dollar Twins, you can maximize your chances of winning scholarships and financial aid, explore alternative funding options, and save money wisely.

Remember, the key is to start early and plan strategically. With a little effort and dedication, you can achieve your goal of attending college without breaking the bank.
